

Complete E-Commerce Fraud Protection

More Sales. Less Fraud. Happier Customers.

When you're running a growing e-commerce business, you can't afford to let fraud get in the way of your revenue or your customer relationships.

ClearSale is the only **complete fraud solution** that ensures you can approve every good order, stop every fraudulent order, and grow your e-commerce sales confidently and safely.

We have three major goals for you:

- Prevent fraudulent activity in your e-commerce store.
- Convert any falsely declined transactions into approved orders.
- Compensate you for any losses related to fraudulent chargebacks.

Comprehensive Fraud Protection

Eliminate chargebacks and approve more orders.

We are responsible for analyzing all credit and debit card transactions through your shopping cart, and we provide 100% guaranteed coverage of all fraud-related chargebacks. Because we review every suspicion of fraud, we find every good order – which means you get the highest approval rates in the industry.

Simple E-Commerce Integration

Set up ClearSale in three easy steps.

Our solution quickly integrates with all major e-commerce platforms, including Shopify, WooCommerce, Prestashop, BigCommerce, and more.

Simply retrieve the plugin for your platform, enable the ClearSale module in your store, and start keeping track of your orders on your ClearSale dashboard. If you need a custom integration, we can help with that, too.

Lightning-Fast Order Approvals

Get most order decisions within seconds.

Every incoming order is processed by our proprietary AI technology. **If the order is good, it's approved immediately.**

If the order is suspicious, **it's quickly reviewed by our experienced fraud analysts** to either verify the fraud or validate the customer identity.

Transparent Costs

Pay only for approved orders.

You have no monthly minimum costs, and you are never charged for declined orders.
